Table 7.2 → 10 iteration  
 $p \rightarrow p \text{ product}$

Q.1 Print the multiplication tables of 2, 3, 4 up to 10 iterations each.

# Nested loops

→ 2 components

→ Outer loop ↙

↳ this will manage for which no. we want the table to be printed

→ inner loop ✓

→ the exact table of current number

outer

START

outer = 1, inner = 1, product = 1

product = outer \* inner

print(outer, " x ", inner, " = ", product)

inner = inner + 1

if  
inner <= 10

Yes

No

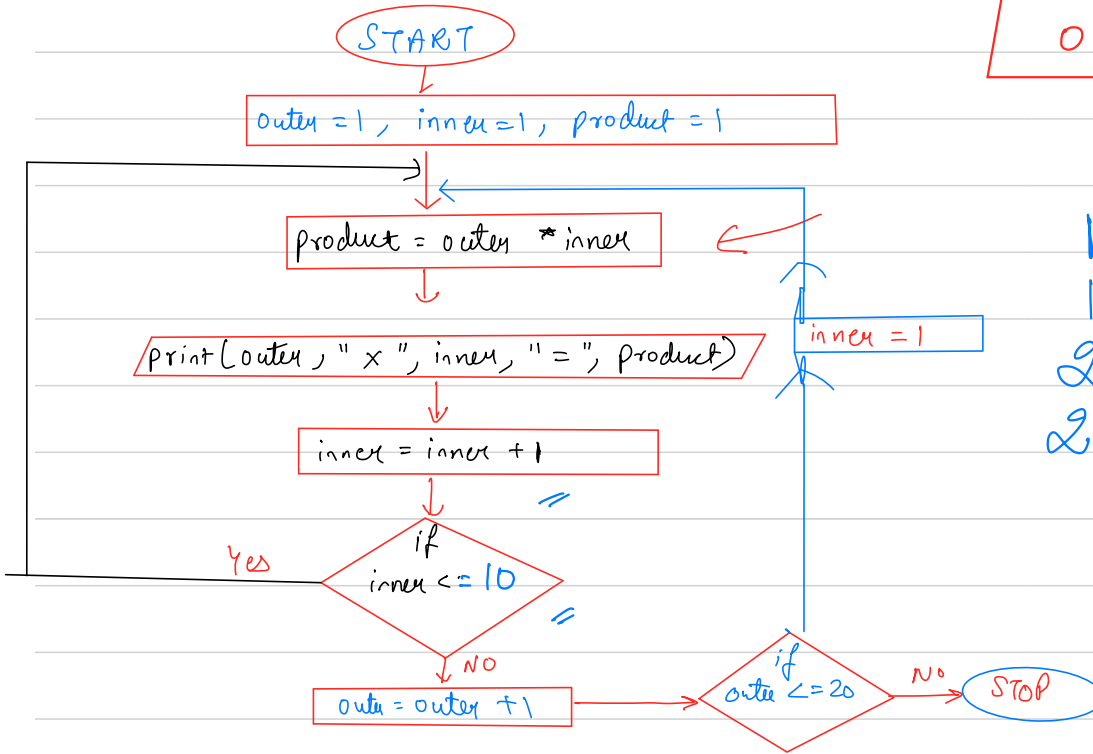

outer = outer + 1

if  
outer <= 20

No

STOP

inner = 1

outer	inner	product	display
1	1	1	$1 \times 1 = 1$
1	2	2	$1 \times 2 = 2$
1	3	3	$1 \times 3 = 3$
1	4	4	$1 \times 4 = 4$
2	1	2	$2 \times 1 = 2$
2	2	4	$2 \times 2 = 4$

Q<sub>1</sub> → How many times the inner loop will run??  
→ 200

Q<sub>2</sub> → How many times the outer loop will run??:  
19

O	i	Display
1	1	Hello
1	2	Hello
1	3	Hello
2	4	Bye
2	5	Hello
3	6	Bye
3	7	Hello
4	8	Bye
